4 First aid measures

First aid measures

- Inhalation

- : In high concentrations may cause asphyxiation. Symptoms may include loss of mobility/consciousness. Victim may not be aware of asphyxiation.
- In low concentrations may cause narcotic effects. Symptoms may include dizziness, headache, nausea and loss of co-ordination.
- Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested. Call a doctor. Apply artificial respiration if breathing stopped.

5 Fire-fighting measures

Specific hazards

Hazardous combustion products

- : Exposure to fire may cause containers to rupture/explode.
- : Incomplete combustion may form carbon monoxide.
